

Isn't It Sweet

Allergen Alert

Here at Isn't It Sweet we are very concerned about people with food allergies. Due to our cozy size and limited space, it is difficult for us to separate or maintain spaces for production which will prevent cross contamination. Therefore, it necessary to advise all customers that any of our handmade and repackaged sweets may contain or may have come in contact with peanuts, tree nuts, coconut, food coloring, latex and gluten products.

We do carry a selection of products produced by the Vermont Nut Free company, which are guaranteed free from peanuts and tree nuts. Please stop in our shop or call to inquire about nut free and delicious sweets.
